

JETTER • CABLE • DRAIN • ADDITIVE & CLEANER

ALPHA-1 SERIES PROFESSIONAL DRAIN ADDITIVES
INDUSTRIAL STRENGTH
CITROJET II
JETTER • CABLE • DRAIN • ADDITIVE & CLEANER

LUBRICATES
SAVES TIME
DEEP CLEANS
DEODORIZES
INHIBITS RUST

Complies with USDA regulations (L-1) for use in drains at federally inspected meat and poultry plants.

CAUTION:
KEEP OUT OF REACH OF CHILDREN
See side panel for additional precautions.
Net Contents: 1/2 Gallon (64 oz.)

FOR PROFESSIONAL USE ONLY

MADE IN 

**FOR USE IN
SEWER LINES AT:**

- Restaurants
- Grocery Stores
- Apartments
- Hospitals
- Laundry
- Shopping Centers
- Schools
- Nursing Homes

- Reduces jetting/cable cleaning time
- Lowers amp draw and increases H.P.
- Leaves drain systems spotless
- Leaves hoses and cables clean

DESCRIPTION:

This natural citrus based degreaser is engineered for high pressure water jetters and cable drain cleaners. It emulsifies and dissolves fats, oils, greases, and most drain build-ups. **Substantially reduces jetting and cable cleaning time while scouring and deodorizing drain systems.**

DIRECTIONS:

PRE-TREAT DRAIN: Add 8 oz. (1 cup) directly to the drain(s) to be cleaned. Can be added to backed-up water, then clean drain.
FOR LARGE JETTERS: Add directly to water tank or fed through antifreeze system during temperature above (+32°) or run separately through chemical feed tank. Does not work as an antifreeze.

USE RATES:

HEAVY BUILDUP: Use 1 gallon to 150 gallons of feed water.

MEDIUM BUILDUP: Use 1 gallon to 300 gallons of feed water.

LIGHT BUILDUP: Use 1 gallon to 500 gallons of feed water.

FOR MINI JETTERS: Add 8oz. (1 cup) to drain before jetting. Can be injected directly into pump through chemical feed line.

Feed directly out of container. Adjust dilution to create a light foam at nozzle.

CABLE DRAIN CLEANERS: Add 8oz. (1 cup) to drain then cable.

STORAGE AND SHELF LIFE: 5 year shelf life. If product is exposed to extreme temperatures, shake thoroughly before use.

PRECAUTIONARY STATEMENTS:

KEEP OUT OF REACH OR CHILDREN. Avoid contact with eyes, should contact occur, flush with liberal amounts of water immediately. If ingested DO NOT induce vomiting. GET IMMEDIATE MEDICAL ATTENTION. Avoid prolonged breathing of vapor.
